BEECH CREEK BRANCH LINE

Comment Form for Public Scoping Meeting February 10, 2009

Thank you for joining us tonight to learn about environmental studies for the proposed reactivation of the Beech Creek Branch Line. An important component of the environmental clearance process is to gather and consider comments from the interested public. Please complete the information below and deposit this form in one of the collection boxes marked "Comment Forms".

1. In which municipality and county is your residence located?

Winburne Casper-township

2. How did you learn about the meeting tonight?

Word of Mouth

3. Please tell us your comments about the information presented here tonight. (How well was the information presented; was it informative and understandable; were the consultants helpful in answering your questions; etc.)

The Consultant's here tonight were very helpful and informative about the impacts of the proposed rail line. But our problem is how the rail line will disrupt our lives and our neighbors also. We have young children and animals. How will this effect our yard and foundation to our house. We will worry about the kids and animals going close to the rail line. And also the noise.

4. What additional comments about the proposed rail reactivation would you like to add?

The rail line will be noisy, danger to our kids and animals. There is always a chance of a derailling. our property value will drop like a rock. Who wants to live by a garbage rail line. (No One)
We are very opposed to this rail line!
